

SUBJECT: New Product Launch
DATE: June 26, 2024
PRODUCT: Universal Vent Cap

Duravent Group is pleased to announce the launch of the new Universal Vent Cap to retail customers.

This cap is self-centering and has an adjustable design for a neat, quick and easy installation. Created for roof vent, flue, and B-vent installations, this new design supports venting a strong draft, and is available in three sizes.

Constructed from aluminum for rust and corrosion resistance, the cap will also prevent rain, debris, and most pests from entering the vent.

** Note: not for use on solid fuel flues**
